Part a

The ciphertext in this instance is 01001101000100111000.
Using our encryption/decryption script, we see that the returned message is indeed 10011100000100001100
when using the arguments `python hw3.py 499 547 159201 10011100000100001100`
